- Combined with video, provides 100% of what took place at an incident
- Mobile App
- Comes with Collision Expert Support
- CANADIAN COMPANY with low monthly subscription

Features

LTE Connected Video Telematics Platform

- All the benefits of conventional vehicle tracking and telematics plus dual-camera, live streaming video!

Apps

BENEFITS

Dash & Body Cameras + GPS

- Increase efficiency
- **REDUCE COSTS**
- Capture all video / audio easily (InfraRed for night)
- ‘Review’ capability on scene
- Reduce liability & false claims
- Easily supply data to Police, Insurance, and Clients
- Reduce court time
- **REDUCE STRESS**
- Reduce administrative hours for investigations
- Alter public behaviour
- Great for Training & Debriefs
- Versatility of Body Cam (to dash cam)
- Get in to hard to reach places with mini cam
- **PERFECT DEPICTION OF SCENE**
- No issues in pitch black conditions
- Capture all audio and reduce ‘he said / she said’ situations
- GPS is great but does not ‘SHOW’ what happened
 - who went through the red light/stop sign
- Reduce complaint investigations of employees
- Increase budgets
- **SAVE MONEY**

***All products come with a limited one year warranty (based on proper installation and usage).
